Serious Error in Norway

Norway Citizens Will Do Well to Profit
by the Following

Many fatal cases of kidney disease have reached an incurable stage because the patient did not understand the symptoms. Even today in Norway there are many residents making the same serious error. They attribute their mysterious aches and pains to overwork, or worry, perhaps, when all the time their rheumatic pains, backache and bladder irregularities are most probably due to weak and ailing kidneys. If you are ill, if your kidneys are out of order, profit by this Norway resident's experience.

Mrs. Orville Palmer, lower Main street, says: "Just recently I was suffering from disordered kidneys. My back was painful and it made me restless at night. I was dizzy and everything seemed to turn around in the room. My kidneys didn't act regularly. Doan's Kidney Pills had been used in the family with benefit so I decided to go to Clark's Drug Store and get a supply. After using two boxes I was all right so I gladly recommend Doan's Kidney Pills."

Price 60c, at all dealers. Don't simply ask for a kidney remedy—get Doan's Kidney Pills—the same that Mrs. Palmer had. Foster-Milburn Co., Mfrs., Buffalo, N. Y.

University
of Maine

To the Alumni, Alumnae, Former Students, and Friends of the University of Maine

Who Owns the University of Maine?

THE University of Maine belongs to every citizen of the State. The Morrill Act, passed by Congress on July 2, 1862, and approved by President Lincoln, made this institution possible to the people of the State. The provisions of this Act were accepted by the State Legislature on March 25, 1863.

The University itself was established by the creation of a corporation known as the "Trustees of the State College of Agriculture and Mechanic Arts," constituted by an act of the State Legislature approved February 25, 1865.

In order that the State might have full ownership and control of the University, the trustee corporation transferred to the State of Maine, in a deed dated July 28, 1870, recorded in Penobscot County Registry of Deeds, Vol. 400, Page 253, "all the real estate, land and buildings thereon situate in Orono in the County of Penobscot and now used and occupied by said corporation as their college grounds * * *"

This deed gave the University of Maine to the people of this State forever.

Recognition of this fact was made by a joint Committee of the State Legislature appointed in

1905 to investigate the needs of the University. Their report read in part: "As this is a State institution, it is the opinion of your committee that it should be placed * * * on a standing equivalent to institutions of a similar character in other states * * *"

The committee also reported that the "just obligations of the State toward the University are to care properly for the students who are in attendance, to secure competent faculty, an adequate equipment of apparatus and buildings, with a reasonable view of the present and future."

These facts are an old story to most, but they are brought to your attention again that you may realize to the full your interest in the University.

Since its establishment, the University has served the State faithfully in the face of many adverse conditions. There is no limit to the value which it can render in the future. The time has come when one of the immediate needs is a new Gymnasium-Armory in order that the physical side of the students' life may be fully developed. This building is to be given by the alumni and friends of the University of Maine.

This is one of a series of talks prepared by the University of Maine Alumni Memorial Fund Committee to tell the Alumni, Alumnae, Former Students and Friends of the University of its past accomplishments, present needs, and future plans in order that they may be well informed before they are asked to contribute to the fund for a Gymnasium-Armory to be built in memory of the forty-one Maine men who died in the service of their country.

Niagara Duster and Dusts

The Farmer who raises fruit for market must spray, there is no question about that, and the most effective and economical way, we believe is the Niagara Duster, a machine which has stood the test of years. These machines can be seen in our storehouse.

"Larger Crops and Better Fruit" is the slogan for 1923.

Outside Windows

Josh Billings says: "Success don't konsist in never making blunders, but in never making the same ones twice."

If you made the blunder of worrying through last winter in a cold and uncomfortable house, don't do it again.

It is not only disagreeable, but mighty expensive—twice as much coal—doctor bills, and a ruined temper.

Besides there is no need of it when you can get your house equipped so easily with

ORIGINAL WHITE MOUNTAIN WINTER SPORTS CARNIVAL

Gorham is the scene of great activity at present, preparing for the big three day Winter Sports Carnival which will take place Thursday, Friday, and Saturday, January 18, 19, and 20th. No effort has been spared by the Carnival Association to make this one of the biggest and best events ever produced in the North Country.

The Carnival will open on Thursday afternoon with a snow shoe and ski hike which all are urged to participate. This hike will probably be to the Country Club and Hitecock's pasture. A bonfire will be built and hot coffee made and served. In the evening there will be a fancy dress skating carnival and if you haven't got your costume ready get to work on it quick for you will surely want to join the crowd. Friday morning will be the preliminary heats in the horse racing, after dinner will be the finals. The horse racing will be followed by a grand parade ending with a mammoth Winter Circus on the Common. In the evening the carnival ball will be held in the Municipal hall. Saturday morning there will be skijoring contests and a race for junior dog teams.

The feature race will be one of the most unique ever held in this part of the country when a race horse and a sheep owned by J. H. Hays, of Whitefield, prominent horse man of that town, will compete. The horse is the eight year old pacer Young Cabel, and the sheep called Nan, is a yearling and is one of the cleverest of her tribe. There is an interesting story in connection with the ownership of Nan by Mr. Hays and her training for the race stunt. The sheep, yas brought to a neighboring farm to be butchered, with a number of others. When the executioner approached as it came Nan's turn to be sacrificed she leaped through a window taking out glass and frame, and ran half a mile to the Hays' farm. Nosing about the barn a minute, she plunged into the box stall occupied by Young Cabel, the horse. She was allowed to stay there, and in a few weeks the horse and the sheep became such firm friends that one would not eat or sleep in the stall unless the other was there. Mr. Hays then began to train them and they have since proved one of the most novel acts on the race circuit. In the afternoon there will be ski jumping contests and the carnival will close with an exciting hockey game in the evening.

Mr. Harrington was away with them, but little could be saved from the house as there was a high wind. Mr. Harrington's mother and the four small children were taken by Elliott Rich to M. H. At this writing no plans for the future have been made.

A fire that threatened to be very serious was discovered in the bank building Friday night about 7 o'clock in the evening. It was located in the part occupied by the printing office of David Forbes of the "Citizen." After a severe fight by the firemen and ready helpers, the fire was gotten under control.

BOY SCOUT NOTES

Bethel Boy Scouts
After the fire excitement died down last Thursday night, Troop No. 1 resumed its regular meeting with 15 present. The organization of the Eagle and Beaver Patrols was first on deck and the ballot results showed the following: Eagle Patrol, Donald Kidder P. L., Guy Thurston A. P. L.; Beaver Patrol, Kenneth Stanley P. L., Charles Haselton A. P. L.

Fire! Fire! Fire!
Troop No. 1, Bethel wishes no special credits for the following fact. Scout Guy Thurston rang in the alarm for the fire at Ocean Hall Block, Thursday night. Also four other scouts helped run out the first hose sleigh that put the first stream of water on the burning building. Any Scout will do well to keep informed on the location of the nearest fire alarm boxes in his town so when necessary he may render a real public "Good Turn."

South Paris Boy Scouts
Fifteen members of Troop No. 1, South Paris, Maine gathered at Howard's Store in preparation for a regular Ski Hike to Mt. Mica. Scoutmaster William Harriman accompanied them. This hike covered a distance of ten miles and certainly came under the classification of "good time." Mt. Mica reached, everyone turned in and prepared dinner. Practise in fire building, cooking and use of knife and hatchet mixed in and several official tests were included. Test in trailing came next and was followed by outdoor games.

Troop No. 1 is progressing steadily under the leadership of Scoutmaster Harriman. There are 33 members in the troop and doing good work.

Mexico Boy Scouts
Scoutmaster Walter Wright reports the following scouts having officially completed their Second Class requirements: Philip Strout, Irving Todd, George Swift, Merion Bessey, Troop No. 1, BSA. Scoutmaster E. E. Strout, Troop No. 2 reports the following scouts who have gained the Advanced degree ranks of Second Class: Sigurd Anderson, Henry Anderson and Tony Povelite.

Both of these troops are going strong and, if indications point to anything, they will be going even stronger during the coming month. Scouts who progress in real Scoutercraft are the real scouts of Oxford County.

Eleven Scouts Win Honors as County Examiners

The following scouts are officially recognized at County Headquarters as the leaders of progressive Scouting in Oxford County. Each hold a ranking of First Class or above and have proven themselves hard workers in their local troops. They have won distinction by three things; their knowledge of scoutcraft, their hard work for the home troop, and a clean record for square living. They were all members of the Oxford County Scout Camp in 1922.

Stanley Perham, Troop No. 1, West Paris. Warren Waterhouse, Troop No. 1, W. Paris. Houghton Kimball, Troop No. 1, Norway. Philip Jenkins, Troop No. 1, Rumford. Roy Jones, Troop No. 1, Bethel. Harry Eckardt, Troop No. 1, Bryant's Pond. (now at Locke's Mills). John Mason, Troop No. 1, Locke's Mills. Clarence Files, Troop No. 1, Bethel. Glenroy Raley, Troop No. 1, Mexico. Gordon Williams, Troop No. 1, Mexico. Howard Kayo, Troop No. 2, Mexico.

Anniversary Week in February 8th-15th

February will bring the 13th Anniversary of the Boy Scouts of America. It will be celebrated well. Why shouldn't it? Thirteen years have placed us on record as having an organization of 500,000 scouts, larger than the rest of the scouts in the world lumped together. We have an organization that will swamp the Army and Navy combined. Furthermore, Uncle Sam has his official signature on the organizations charter. This is the program for the week. Every scout troop will take part in this program of celebration:

Feb. 8th, Thursday, Scout Birthday (with Annual Banquet).
Feb. 9th, Friday, School Day. (Demonstrations or speeches).
Feb. 10th, Saturday, Demonstration Day. (Fishes and Ball).
Feb. 11th, Sunday, Scout Sunday. (Scouts attend church, special sermons).
Feb. 12th, Monday, Citizenship Day. (Public Good Turns).
Feb. 13th, Tuesday, Home Day. (Good turns at home, family take out).
Feb. 14th, Wednesday, Round-up Day. (Father and Son, Scouts and Scouts will as official reports on round-up).

WATERFORD

Plummer Hill

Isabel Whitcomb is slowly recovering from her recent sickness. Ruby Gardiner was called to Bridgton last week on account of the serious sickness of her little grandson, Edwin Duran, who passed away of bronchial pneumonia; his age was sixteen months. Many in the neighborhood are having bad colds and coughs. Dennis Gardiner has had a telephone installed in the past week. John Grover and family have moved to Sweden for the winter, as he has taken a logging job over there.

EAST OTISFIELD

Mrs. Charles Thurlow's mother, who has been visiting her the past few weeks, returned to her home in Phillips this week.

E. A. Brown and family of Mechanic Falls have moved onto their place on Scribner Hill.

Mrs. Lydia Spurr is spending the winter in Florida.

E. R. Stone, who suffered an ill turn recently, is some improved, so he walks on the piazza.

W. F. Smith is busy cutting ice for the farmers. Mrs. Annie Files of East Stoneham is keeping house for him.

John Kemp, with a crew of men, has moved camps on the Frank Morse lot and is logging. John Kemp is cook.

David Jilson is at work for Lewis Bean; he and Eastman are cutting timber.

KEZAR FALLS

The library association held a meeting last Saturday for the purpose of choosing a location for the new library building to be erected the coming summer; finally deciding to accept the building lot offered them as a gift by the Kezar Falls Woolen Mill Co. A vote of thanks was extended the company for their generosity.

Sixty inches of snow in the woods is pretty hard on the lumbermen. Edith Moore has returned home from the Deaconess Hospital, greatly benefited by her sojourn there and highly eulogistic of the kindnesses accorded her.

Mrs. Perley Gross was in Boston a few days last week.

For pure homemade nut-candy by mail see ad of Fred G. Richardson, Littleton, N. H.

Every day in every way our shows grow better and better.

A WANDERER'S WISH

Oh, take me back to northern Maine
To the logging-camp where I was raised—
To the place where I was born.
Let me listen to the breathing pines,
To the driving chips from the "saw."
To the well-timed strokes of the "double-bit,"
To the woodsman's careful laugh.
Let me hear the tip of the cross-cut saw
As its teeth chew living wood.
And the squeak of the loosened handle
When the chopper says, "That's good."
Let me hear the sigh of the swaying tree,
O'er the thump of the heavy sledge
And the groan and snap as it shivers
From top to lifting wedge.
Let me hear the crash of breaking limbs
And the heavy thud to earth.
And the fallen monarch helpless lies,
That must may scale his girth.
Hear the sled-bunk rumble in pain,
And the clump, clump, clump of the peevish dog
And the rattle of binding-chains.
Let me hear the teamsters' curse and "gee!"
As they "sledge" down the hill,
With victims for the screeching saw
And executioner at the mill.
Let me hear the cry of "Timber,"
And the blast of the dinner horn, "jacks,"
And the hated yell, "Roll out you, jacks,"
On a frosty winter's morn.—S. F. B.

RESOLUTIONS OF RESPECT

Whereas, the great and supreme Ruler of the universe has in His infinite wisdom re-estimated sisters, Nellie Sawyer, and whereas, the long and intimate relation held with her the faithful discharge of her duties in this society makes it eminently fitting that we record our appreciation of her, therefore, be it resolved, That the removal of one of our members from among our midst leaves a vacancy and a shadow that will be deeply realized by all members and friends of this Lodge.
Resolved, that in memory of our beloved sister, that she be remembered in our prayers for thirty days and that these resolutions be spread upon our records, also a copy be sent to the sisters and the same be published in the Norway Advertiser.

RESOLUTIONS OF RESPECT

Once more the great Commander of us all has said to one of our members, "Come up higher," and our sister, Caroline Plummer, earth's weariness and pain to that land where sickness and sorrow are unknown, therefore, be it resolved, that we deplore the loss of a worthy and faithful member of our order, but we realize that she has only gone a little before from the activities of this life to higher and holier duties in the life just beyond our earthly vision.
Resolved, that we extend the family of our sister our loving sympathy and we ask them to remember that there will be
"one more to welcome them."
When they shall cross the intervening space between this land and that one over there, we more to make that strange Beyond seem "nearer."
Resolved, that a page of our records be set apart for these resolutions, that a copy be sent to the family, and a copy to the Norway Advertiser for publication, and that our charter be draped for thirty days.

Ode To White Canvas

What gives employment to a few
And leaves the rest with naught to do
But stay at home to fuss and stew?
"White Canvas."

What fills with lint our lovely hair
And makes our nerves all of a tear,
What makes the foreman rave and swear?
"White Canvas."

What beats the things the poets wrote
And makes one man the Scriptures quote,
What gets the pattern maker's goat?
"White Canvas."

What puts the ache into our backs,
And pains and cramps our honest wrack,
What keeps the foreman on our track?
"White Canvas."

Why is it in our homes at night
That nothing seems to be just right,
Why somehow feel we'd like to fight
"White Canvas?"

But in the future days to be
When from this evil we are free,
We hope that ne'er again we'll see
"White Canvas?"—A Stitcher.

A TRIP TO FLORIDA

By Lydia Lord Shegd

Florida has 9,500 miles of water front, 1,100 miles being sea coast. It also has the finest sea beaches in the world. The finest oranges and grape fruit. Florida is as large as New York, Massachusetts and Rhode Island combined. Florida trees supply fruits, nuts, dyes, oils, drugs, chemicals, tar, pitch, turpentine, rosin, gum, creosote, moss and lumber. Every kind of vegetable that is known is raised here.

Vero is 228 miles South of Jackson- ville. It is 74 miles to Palm Beach, one of the loveliest spots in Florida. Vero is next to the largest city in St. Lucie county. It has a wonderful climate. The average temperature is about 82 degrees.

Here one can raise fruits, flowers and vegetables every month in the year. There are many beautiful buildings and many more under construction.

Eight years ago Vero was a one story way station. It is now a beautiful city and growing fast. It has over thirty business houses, two banks, three hotels, restaurants, garages, lumber yards, four citrus packing houses, two vegetable packing houses. Eli Walker one of the largest fruit growers in Florida has boxes of grapefruit this season that takes only 26 grapefruit to fill them. Some of the largest are 24 in. in cir- cumference. He has three or four Ar- tesian wells on his land, 4 in. stream from them running continually forming large brooks. He has two tame Alligators liv- ing in the streams. One is ten feet long and about 4 feet around. He feeds them on meat. The largest one is named Polly and will come lumbering up on the bank when called. The fruit pickers feed her on crumbs too. It takes about eighty ordinary grape fruit for a box. Mr. Walker's place is on the Kings Highway about four miles from the city of Vero. It is one of the oldest groves in this vicinity.

The word Vero is to be painted on four sides of the new water tank. It is one hundred and thirty-five feet high and holds seventy-five hundred gallons of water.

There are two additional trains run- ning here now making four trains each way daily. The train from Jacksonville through Florida, have oil burning loco- motives.

When we read in "The Norway Ad- vertiser," that Maine best and bright- est newspapers, about the severe snow- storms and zero weather up North, we can hardly make it seem possible, that they are having winter there while we sit on the porch in our summer clothes with the scent of roses and other flowers in the air. So many lovely flowers are in bloom all around us, with the birds singing in the trees far and near, we are fairly dazed with our good luck in hav- ing such winter quarters. The lark, which is the sweetest singer of all is very much like our meadow lark or what is sometimes called in the North, the "Swamp Robin." It has not as many notes to its song or quite as clear and sweet a voice as our northern lark. The blackbird is very beautiful but his voice has a rasping sound, still we like to hear them. A large flock of quail feed on our lawn for some days after we came here. They would scurry under cover if a Tur- key Buzzard or a large bird came flying over. They seemed to feed on the ants and other insects out of the newly turned ground, but they have all disappeared, to our sorrow as they were very interest- ing to watch. They no doubt have been a dainty morsel on some sportsman's table ere this time. There are deer, quail, ducks, and rabbits in profusion for the sportsman in the hunting season. License to hunt may be had in each county from the County Judge.

Beside the citrus fruits, splendid pine apples are here raised. Pears, mango, avocado, sapota and sapsilla and many other fruits to numerous to mention.

Many fine churches are built here. The Methodist, Baptist, Lutheran, Presby- terian, Christian Science, Catholic. There is a Public Library. The Woman's Club hold meetings here. There is a theatre, light and power plant, and many other buildings of note. The State has 10,000 miles of fine roads and more under construction. It has five trunk-line rail- roads and eleven steamship lines. More automobiles are seen here than in Maine. Have never seen but one driving horse and carriage since coming here. Saw rule teams and a large bull hitched to a wheelbarrow, well broken to harness.

SWEDEN

Black Mt.

There was no Sunday School this week on account of the bad weather.

Some of the women around here would have to "hustle some" to beat this record for knitting. During the fall and winter Will Charles has knit 10 pair of mittens, 3 pairs of footings, 2 pairs of leggings, a long sleeved sweater and foot- ed out seven footings. Besides this he has done chores and other work.

Those logging report the snow very deep in the woods.

Black Mt. school closes this week. The past two weeks have been hard for both teacher and scholars such bad traveling.

Guy Traver sawed Will Bryan's wood one day last week, with the I. H. C. truck he purchased last fall making good power for this purpose.

Startling.

An East-end matron got the shock of her life over the telephone the other day. The lady in question is extremely dignified, and conducts her whole life in keeping with a calm stateliness that is increasing with the whitening of her hair. In her quiet, slow, perfectly self-possessed manner and tone of voice she called the "Pennsylvania" station, requested "Information," and from the person at the other end of the wire inquired concern- ing trains to a certain town. Imagine her emotions when said voice flippantly rasped out: "What time of the day do you want to go, girly?"—Pittsburgh Chronicle-Telegraph.

Just Wonders.

"There's a lot of traffic along the road, isn't there?" Inquired Will H. Adams, reporter of the Supreme and Appellate courts, of an aged farm woman, as he repaired a tire in the shade of the farmyard while the old woman watched interestedly.

"Yes, they whiz along here from morning to night, every day. I just wonder sometimes, why's doing the work up there in town these days."—Indianapolis News.

the news column as follows: "I pre-

sume," he said, "that the action of the

committee is in accord with what they

consider to be the mandate of the people,

and I hope for your sake that it is so.

I will say I believe the time will arrive

The Laxative with 72 Years' Reputation
For The Whole Family

Dr. True's Elixir

The True Family Laxative

Mothers with their home worries are often irregular at meals—have no appetite—are often restless at night—are tired and are troubled with distressed stomachs—need a prompt, pure herb laxative, and such is Dr. True's Elixir, the True Family Laxative. The working man is apt to neglect his health; may eat too hurriedly and at irregular hours. Often this puts the bowels out of order—they fail to function properly—causing fretfulness, taking away the appetite, slowing down the active mind. To relieve these conditions, have a bottle of Dr. True's Elixir handy. Use it as others have done during the past 70 years.

When the children are out of sight they often eat too many sweets or rich foods. This brings on constipation in many cases. Watch these symptoms: Constipation, sour stomach, cramps, eyes heavy and dull, bad breath, restlessness, and biliousness. These are common to both children and grown-ups and call for prompt use of a laxative. Mrs. F. E. Smith, 112 Huntington Ave., Boston, says: "I have been taking Dr. True's Elixir for constipation and find it to be more effective than anything I have ever used." Use the True Family Laxative, Dr. True's Elixir. 40c, 60c, \$1.20.

Another Nervous Woman Finds Relief
Port Huron, Mich.—"I suffered for two years with pains in my side, and if I worked very much I was nervous and just as tired in the morning as when I went to bed. I was sleepy all the day and didn't feel like doing anything, and was so nervous I would bite my finger nails. One of my friends told me about Lydia E. Pinkham's Vegetable Compound, and it helped me so much that I soon felt fine." Mrs. CHARLES BEELER, 1910 Elk Street, Port Huron, Mich.

FARM BUREAU NOTES

Meetings of the local Farm Bureaus in the county are being held this month to arrange for the program to be carried out during the coming season and to elect officers. Both the County and Home Demonstration Agents are attending these meetings to present their respective programs of work.

In the men's division the crops project is receiving particular attention. Mr. Lovejoy reports that over four hundred bushels of certified seed potatoes have already been ordered by farmers for seed plots. Certified seed plots last year produced 127 bushels to the acre more than the county average of ordinary seed potatoes. Nearly a thousand bushels of these certified seed will be brought into the county this year. Besides the potatoes, there will be many tons of nitrate of soda, acid phosphate and lime purchased for grass and orchard demonstrations, and New York Flint Silage corn will become almost exclusively used throughout the county, due to the fact that demonstrations for two years have proved that it is worth on the average of \$20.00 per acre more than comparison varieties.

Mrs. Babb, the Home Demonstration Agent, states that the foods project is going to be one of the leading projects this year, and that the women are especially welcoming the program that means very rapid strides in community health improvement. Clothing and household management work, the two major projects of 1922, will also be carried out in every community, while the boys' and girls' club projects will be pushed forward then ever in both men's and women's divisions.
